

## Region 5 700 MHz Regional Planning Committee

November 20, 2019

RE: Modification to Region 5, 700 MHz Allocation Spreadsheet, Docket 02-378

Marlene H. Dortch  
Federal Communications  
Commission Office of the Secretary  
445 12th street, SW  
Washington D.C. 20554

Dear Secretary Dortch:

Please accept this amendment to the Region 5 700 MHz allocation spreadsheet for approval. This change adds channel 411-412 for City of Los Angeles fill-in use. City of Los Angeles operating area is more than 70 miles from all adjacent regions, so no concurrence was requested from those regions.

In addition, the Port of Los Angeles is giving up six channels – 349-350 369-370 673-674. These have been removed from the attached allocation Spreadsheet

Given the distance from the other adjacent regions, we believe this should be considered a minor amendment. Also attached is the proposed new spreadsheet showing these changes in red font and a new note 5 noting the limitations on the Region approval.

This Change was approved at the October 2019 regular monthly meeting per the Regional 5 Plan requirements. Filed with this letter is the updated spreadsheet and a copy of the email from the Port of Los Angeles giving back the channels.

Sincerely,

A handwritten signature in black ink, appearing to read "David Buchanan", with a long horizontal flourish extending to the right.

David Buchanan, Chair  
Region 5 700 MHz Regional Planning Committee
